GE-N200V5-A SWITCHING POWER SUPPLY

Brand: G-Energy (ULI-GET Series)
Power Rating: 200 W

Specifications

Giant Albert
SHENZHEN G-ENERGY TECHNOLOGY CO., LTD.

Brand: G-Energy (ULI-GETSeries)
Power Rating: 200 W
Category: LED Display Power Supply

Product Overview

The GE-N200V5-A is a high-efficiency switching power supply designed for LED display cabinets and industrial systems. It ensures stable DC output, low ripple, and full safety protection for reliable performance in indoor or outdoor environments.

Key Features

• Rated Power: 200 W (max.) • High Efficiency: Up to 87% • Output Options: 3.8V / 4.2V / 4.5V / 13V DC • Protections: Short circuit, over-voltage, under-voltage, and over-load • Temperature Range: –30°C to +60°C • Ripple ≤150mV for stable LED visuals • Compact aluminum body for better heat dissipation

Technical Specifications

Parameter Model	Specification
Output Power Input	GE-N200V5-A
Voltage Output Voltage	200 W (max.)
Options Output Current	AC 100–240 V, 50/60 Hz
Ripple & Noise	3.8V / 4.2V / 4.5V / 13V DC
Efficiency Leakage	0–40 A
Current Operating	≤150 mV
Temperature Protection	Up to 87%
Features Cooling	≤1 mA
Method	–30°C ~ +60°C
	Short circuit, under-voltage, over-load
	Natural air convection

Applications

• LED Display Cabinets (P2.5 – P10) • Industrial Control Panels • CCTV & Lighting Systems • Automation Equipment

Ordering Information

Model	Output Voltage	Output Current	Ripple & Noise	Efficiency
N200V5-A	5V DC	0–40A	≤150mV	Up to 85%
N200V5-B	5V DC	0–40A	≤150mV	Up to 87%
N200V5-C	5V DC	0–40A	≤150mV	Up to 87%
N300V5-A	5V DC	0–60A	≤150mV	Up to 86%
