

Full Technical Specification

Sl. No	Item Name	Technical Specification
1	Power Supply	Brand: G-Energy (ULI-GET Series) Model: GE-N200V5-A Product Type: LED Display Switching Power Supply Power Rating: 200 W Country of Origin: China Country of Manufacturer: China Key Features • High-efficiency 200 W switching power supply for LED display cabinets and industrial systems. • Stable 5 V DC output with up to 40 A output current. • Low ripple and noise (≤ 150 mV) for stable LED display operation. • Built-in short-circuit, under-voltage and overload protection. • Wide operating temperature range from -30°C to $+60^{\circ}\text{C}$. • Compact aluminum body with natural air-convection cooling for heat dissipation. Electrical Specifications • Rated Output Power: 200 W (max.) • Input Voltage: AC 100-240 V, 50/60 Hz • Output Voltage: 5 V DC • Output Current: 0-40 A • Ripple & Noise: ≤ 150 mV • Efficiency: Up to 85% (N200V5-A ordering specification) • Leakage Current: ≤ 1 mA Protection & Thermal Specifications • Protection: Short circuit / Under-voltage / Over-load • Operating Temperature: -30°C to $+60^{\circ}\text{C}$ • Cooling Method: Natural air convection Recommended Applications • LED display cabinets (P2.5-P10), industrial control panels, CCTV & lighting systems, and automation equipment.
