

Full Technical Specification

Sl. No	Item Name	Technical Specification
1	Power Supply	Brand: Lampro Model: LD200-V001-4.5 Product Type: Switching Power Supply Country of Origin: China Country of Manufacturer: China Key Features • Compact metal housing suitable for LED/display installations. • Stable and reliable DC power output for continuous operation. • Wide AC input range with 50/60 Hz compatibility. • 4.5 V DC output with 40 A output current. • Reliable switching power supply design for LED/display applications. Electrical Specifications • Input Voltage: 200-240 V AC • Input Current: 2.5 A • Frequency: 50/60 Hz • Output Voltage: 4.5 V DC • Output Current: 40 A Construction & Performance • Metal-cased construction for compact installation and durability. • Designed to provide stable DC output for reliable electronic operation. Recommended Applications • LED display systems, electronic equipment, control panels and industrial devices.
