

Indoor & Outdoor LED Display Structure Materials

Sl.	Material Category	Indoor LED Display	Outdoor LED Display
1	Structural Framework	• MS Box Pipe: 3" x 1" • MS Box Pipe: 2" x 1" • MS Angle: 1.5" x 1.5" High-grade mild steel framework for strength and rigidity.	• MS Box Pipe: 3" x 1" • MS Box Pipe: 2" x 1" • MS Angle: 1.5" x 1.5" High-grade mild steel framework for strength and rigidity.
2	Surface & Cladding	• PVC Sheet Used for rear panel and internal cladding for protection and aesthetic finishing. • Aluminum Composite Panel (ACP) Used as strong and lightweight protective cladding.	• PVC Sheet Used for rear panel and internal cladding. • Aluminum Composite Panel (ACP) Provides strong, lightweight and weatherproof protection.
3	Cabling & Electrical	FRC Cable - internal power distribution. Electrical Cable - internal board-to-board connections. Cat-6 Data Cable - data/control transmission.	FRC Cable - internal power distribution. Electrical Cable - internal board-to-board connections. Cat-6 Data Cable - data/control transmission.
4	Fasteners & Accessories	Screws (various sizes) for panels, sheets and structural joints. Nuts, bolts, washers and other fabrication/assembly hardware.	Screws (various sizes) for panels, sheets and structural joints. Nuts, bolts, washers and other fabrication/assembly hardware.
